About

I am a versatile **Digital Skills Trainer, Web Developer, Odoo ERP & Business Process Consultant, and Client Support Specialist** with experience in technology, training, business processes, and problem-solving. I specialize in delivering practical, learner-centered training, developing digital solutions, supporting clients with Odoo, and simplifying complex technical concepts. I thrive in project-based environments where I can combine technology, business understanding, and communication to solve real-world problems and deliver practical results.
